Accessory Range *Extensions* and *Price Reductions*

We are excited to announce the following, all to work with and enhance the operation of the SCIO/EPFX/QXCI

NEW

ADK 3000 LED and Infra-red attachment-*works alone or in conjunction with SCIO/EPFX/QXCI*

NEW

UAB Universal Accessories Interface-*making connecting up easier*

PLUS

- **Cost reductions** between 20% and 57% achieved by design and manufacturer changes on all items.

AND

- **Bourne protocols** now available for purchase: a unique complement to the SCIO-EPFX-QXCI that not only gives guidance but has facility to paste an expert's experience into the piggy back boxes

ADK 3000 BioPhotonic Unit ***The ultimate SCIO Attachment***

Just released: from Dr Bourne SCIO accessories developer

Dr Alistair Bourne, one of the most experienced and creative energetic medicine practitioners in the world, has sanctioned for release the ADK 3000 Bio-photonic device: to date this constitutes the ultimate QXCI-EPFX-SCIO attachment. Dr Bourne is the inventor of most of the QXCI accessories.

Purpose

The ADK 3000 will

- carry the therapy pattern from the SCIO/EPFX/QXCI to the skin via the outside metallic contact ring (just like the normal accessories)

AND ALSO

- allow you to add LED or IR therapy to that area

SOME APPLICATION AREAS

- ✓ Pain
- ✓ Infections
- ✓ Skin & Beauty
- ✓ Dental
- ✓ Acupuncture points (protocols included for many conditions)

Dental, impotency, shingles, Candida, canker sores, herpes virus, throat, ear and sinus issues, athlete's foot, fungus and bunions, varicose veins, hemorrhoids and general pains, pain relief and priorities, beauty applications, cellulite, acne, acne scars, stretch marks and scars.

RESULT

✓ *Really effective treatment*

Operating Modes

The ADK 3000 is capable of operating:

1. in stand alone bio-photonic mode and in combination with energetic medicine devices which have an accessory output facility.
2. in conjunction with the EPMX/SCIO/QXCI

It offers:

- Visible red at 600 NM, 35 mW via
 - Multilux head with 12 LEDs with 50 mm peripheral ring for concurrent input of device patterns.
 - Single LED for focused applications.
- Infra-red at 935 NM, 35 mW via pen

Selection facilities

- Continuous
- Delta band – optimal endorphin effect, opiate like pain control effects, deep relaxation.
- Beta: relaxation.
- Alpha (10 HZ) balancing and meridians etc
- Tonic (30 HZ) – for lethargic conditions e.g. ME/CFS.
- 125 HZ: feel good hormone stimulation, pain reduction and relaxation.
- Infra-red probe test.
- Connection for signals from another device (SCIO etc.)
- Output connection for concurrent use of other accessories (probe, roller, pads etc.) with the SCIO etc. signal.
- The system design has the following operational possibilities.
 - Mode 1: in stand alone using the LED/IR units
 - Mode 2: as above but supplemented using the multi-lux probe with QXCI/SCIO etc. patterns.
 - Mode 3: as above with QXCI/SCIO attachments.
 - Mode 4: integrated with Bourne protocols.

Method of application

The system can be used stand alone or in conjunction with input from another device for a complete range of therapies. By integrating it's use with the Bourne protocols (involving the use of specific SCIO test matrix patterns in conjunction with issue related acupuncture points) enables additional sedation/tonification input not only locally but also generally in terms of the beneficial treatment of acupuncture points when incorporated into this approach.

The user manual extensively describes use for:

- Reflexology approach.
- Pain reduction.
- Beauty enhancement and size reduction.
- Eye treatment.
- Emotional freedom technique.
- Acupuncture points in relation to addictions.

Specifically there are stand alone approaches for the following areas:

Dental, impotency, shingles, Candida, canker sores, herpes virus, throat, ear and sinus issues, athlete's foot, fungus and bunions, varicose veins, hemorrhoids and general pains, pain relief and priorities, beauty applications, cellulite, acne, acne scars, stretch marks and scars.

Prices, Availability, Ordering Details

Ex works **\$950/ /~~€20~~/£545**

Shipping **\$65/~~€50~~/£35**
