Sample Protocol-	12

The Bourne protocols are unique in several respects:

- ✘ They are NOT just a where to find the buttons in the SCIO.
- ✓ They ARE a very complete and integrated approach to a health issue- considering all the aspects and body systems involved,
- ✓ The primary focus is on tissue reconstruction- healthy tissue will behave intelligently to do what the organism needs.
- ✓ Supportive elements are by paste in piggy backs to optimise treatments.
- ✓ There is a complete and comprehensive road map for the issue based on Dr Bourne's 50 years experience as a Dr. of Natural medicine.
- ✓ Each protocol contains real world support elements.

Prices**Complete Releases**

Dr. Bourne Protocol CD Issue 2 (parts 1-2)	\$250	£122	185€
Dr. Bourne Protocol CD Issue 3 (parts 1-2-3)	\$350	£171	258 €
Dr. Bourne Protocol CD Issue 4 (parts 1-2-3-4)	\$500	£245	370€

Upgrades

Dr. Bourne Protocol CD Upgrade part 1-2 to 1-2-3 (add part 3)	\$100	£49	74 €
Dr. Bourne Protocol CD Upgrade part 1-2-3 to 1-2-3-4 (add part 4)	\$250	£122	185€
Dr. Bourne Protocol CD Upgrade part 1-2 to 1-2-3-4 (add part 3 &4)	\$350	£171	258 €

To order:

1. Fax Visa or Mastercard details to ++44 870 460 1138 with full address details. (NOTE: Amex & Diners can not be accepted) Alternatively Tel ++44 121 243 6318 (UK). john @bioenergypship.co.uk
2. The CD will be dispatched by air mail post: allow 7-10 days.
3. Your name will be entered onto a register entitling you to purchase updates as they become available.
4. It will be possible to order on line shortly.

Important Notes

1. **Please read all the information that follows this protocol list before using this software.**
2. **Instructions for creating a folder and icon are included.**
3. **When ready to start a therapy click on the name in the index.**
4. **When you want to return to the index click on protocol list in the left hand column**

Listing Parts 1-2-3-4

Acid/Alkaline Ph Values In Illnesses	Heavy Metal Detox
Acne	Haemorrhoids
Acne Rosacea	Hepatitis
Acupuncture Information	Hernia Protocol
Anatomy Points	Herpes Simplex
Acupuncture Points	Herpes Zoster (Shingles)
Balance Yin Yang	Hiatal Hernia
Cardinal Points	Hyperoxaluria
Emergency Points	Hypertension
First Aid Points	Hyperthyroidism
Systemic Points <i>The Source Points of the Tw-Si-Li</i> <i>The Source Points of the Lv- St</i> <i>The Source Points of the H7 Lu9</i> <i>The Source Points of the Bl 64 Gb40</i> <i>The Source Points of the K5 Sp3</i>	Hypoglycemia
ADD	Hypotension
Addiction Withdrawal	Hypothyroidism
Addisons Disease	Impotence Protocol
Aids	Indigestion Heartburn
Alcoholism	Infertility Female
Alopecia	Infertility Male
Alzheimer's	Inflammation
Ankylosing Spondylitis Protocol	Influenza
Amenorrhea	Insomnia
Anemia	Intestinal Dysbiosis
Anger Protocol	Intestinal Flora Imbalance
Anemia Blood Loss	Intestinal Parasites
Anemia Metabolic	Intestinal Polyps
Angina Pectoris	Intestinal Worms
Anorexia Nervosa	Irritable Bowel Syndrome
Anti Aging	Jet Lag
Anxiety Protocol	Kidney Failure
Aphthous	Kidney Stones
Appendicitis	Laryngitis
Arteriosclerosis	Leukaemia
Arrhythmia	Liver Cancer
Aspartame-a Must Read	Loading Products Into The Matrix
Asthma Protocol	Lung Cancer
Autism Protocol	Lyme Disease
Back Problems	Lymphoma Hodgkin
Beauty Therapy	Lymphoma: Non-Hodgkins
Bells Palsy	Manic Depression
Biliary Colic	Meniere's Disease
Blood Loss	Meningitis
Benign Prostate Hypertrophy Protocol	Menopause
Bipolar	Mononucleosis
Bladder Cancer	MS
Body Parts	Muscular Dystrophy
Brain Tumor	Myasthenia Gravis
Breast Cancer	Nasal Polyps
Breast Enlargement	Nephrosis
Bronchitis	Oedema
Budwig Cream	Osteoarthritis
Bulimia	Osteoporosis
Bursitis	Otitis Externa
Burns	Otitis Media
Cancer Causes	Ovarian Cancer
Cancer Herbs I Use	Pancreatic Cancer
Cancer Prevention Hint	Parkinsons

Cancer When No Protocol Exists	Peptic Ulcer
Carpal Tunnel	Pituitary Dysfunction
Cataract	Pleurisy
Celiac Disease	Pneumonia
Cellulite	Premenstrual Syndrome
Cervical Dysplasia	Post Surgical Therapy
Cervicitis	Post Traumatic Stress
Chicken Pox	Psoriasis
Client Profile	Prostate Cancer
Cholecystitis (Gall Stones)	Prostatitis
Colon Cancer	Psychic Disturbances
Chorea	Radiation Exposure
Chrons Disease	Raynaud's Disease
Chronic Fatigue Syndrome	Rheumatoid Arthritis
Cirrhosis	Rheumatic Heart Disease
Coma	Rife Frequencies
Congestive Heart Failure	Rubella
Conjunctivitis	Salivary Gland Cancer
Constipation	Sarcoidosis
Contact Dermatitis	Schizophrenia
Croup Protocol	Sciatica
Cystitis	Scleroderma
Cystic Fibrosis	Seasonal Affective Disorder
Cushings Syndrome	Seborrheic Dermatitis
Dental Caries	Shingles. See Herpes Zoster
Depression	Sinusitis
Detoxing	Sjorgrens Syndrome
Diabetes Insipidus	Skin Cancer (Melanoma)
Diabetes Mellitus	Skin Ulcer
Diabetes Notes	Spinal Segmental Lesion
Diarrhoea	Spontaneous Abortion
Different Disease Codes For Application When No Protocol Exists	Stem Cell Therapy
Diverticulitis Protocol	Stomach Cancer
Tongue Diagnosis Index- Example Of 49	Stomatitis
Illustrations And Therapies On The Tongue Diagnosis And Therapy Cd Available From AGB NZ Ltd	Stress Notes
Tongue 1	Stress Protocol
Dizziness Vertigo Protocol	Stroke
Downs Syndrome	Subacute Bacterial Endocarditis
Dupuytren's Contracture	Systemic Lupus
Dysentery	Tachycardia Bradycardia
Dysmenorrhea	Tendinitis
Ear Points	Tennis Elbow
EFT	Testicular Cancer
Eczema	Testing Products From The Test Tray
Ehlers-Danlos Syndrome	Thrombophlebitis
Emphysema	Thyroid Cancer
Endometreosis	Tinnitus
Enurisis Protocol	TMJ Syndrome
Environment Reprogramming	Tongue Diagnosis
Epilepsy Protocol	Tooth-Organ Charts
Epistaxis	Torticollis (Neck Pain)
Excess Cholesterol	Tuberculosis
Eyesight Problems	Ulcerative Colitis
Facet Syndrome	Urticria
Fast And Slow Responders	Uterine Cancer
Fear	Uterine Fibroids
Fever	Urinary Incontinence
Fever of Unknown Origin	Urethritis
Fibrocystic Breasts	Vaccination Disturbances
Fibromyalgia	Vaginitis/Leukorrhea
Five Element System	Varicose Veins

Flow Chart for Bourne Therapy	Venereal Disease
Food Poisoning	Warts
Food Sensitivities	Wave Functions
Fractures	Weight Loss
Frequency Chart	Weight Loss Notes
Frozen Shoulder	Whooping Cough
Gallstone Flush	
Gastritis	
Gastroenteritis	
Gingivitis	
Glaucoma	
Goiter	
Gout	
Grief	
Guillain Barre Syndrome	
Hair Loss	
Hayfever	
Headache, Nonvascular	
Headache, Vascular	
Hearing Loss	
Heart Attack	
Heartburn

Updates and Additions

Updates will be issued on a regular basis building to a software package that will include approximately 400 protocols.

Only registered users will be entitled to updates: each purchaser will be recorded and checks made against update requests. Each update will contain 50 new procedures.

You are welcome to contact Prof Laubach-Bourne regarding the addition of a protocol for updates and these will be included.

Genuine enquires will always be answered. My load precludes me from being able to enter day to day conversations.

Intent

These protocols have been developed and written by Prof. Dr.A.C.Laubach-Bourne PhD.MSc.MD(MA) TcM. Dip.Ac. MNZIA. NZCHP. Dip Chi Kung. Dr Biological Medicine, Faculty member of the University of Natural Medicine. Senior Research Fellow and Health Care Professional.

It is for use by health care professionals for purposes of dialogue, exploration, research and education. The material contained in this package represents the highest quality information that I can make available to the user. The protocols have been reviewed by and supplemented with material from experienced practitioners and acknowledged authorities of medical diversity.

My thanks to Nona Baker, USA, who has helped to edit and retype them as needed.

The function of applying these protocols is *not* to replace any method you may have been using with the EFPX. It is presented to you as an adjunct to those protocols and *is especially designed for those of you that lack any formal qualifications or medical training*. These protocols are based on current medical science and traditional Chinese medicine and are based on the premise that in order to treat any pathology, you simply have to treat all the organs that need balancing.

You will find using these protocols will bring you excellent results with the EFPX/SCIO as they have been tested and have brought about a positive result in almost every case.

The system is a step-by-step protocol for initiating these protocols: *You can input all these therapies and codes into the patient's homeopathic bottle as you run them.*

Disclaimer

Users are advised to use their professional training and clinical judgment in applying any material found in this software. While the information contained in the software is derived from years of research and clinical experience, the software is for research

purposes only and is not intended to provide or confirm a diagnosis, nor is any claim made as to therapeutic efficacy or cure. It will serve you well to always to keep in mind that this software offers only information about clinical routines. True healing derives only from spontaneous and sincere support of the transformative process of the individual seeking care.

Installation process and sample

The following is for your information only to illustrate the method and a typical protocol.

Installing the Bourne Protocols: full Installation

1. Create a new folder: Bourne Protocols.
 - a. Go to my computer and open, click on C drive.
 - b. Right click anywhere on the page to open panel.
 - c. Click new.
 - d. Name the new folder, QXCI Protocols.
2. Open it and leave it open
3. Open CD Drive.
 - a. Copy the three files on the CD by pressing control and A.
 - b. Drag the three files to the new folder and drop.
 - c. Create a shortcut by right mouse clicking on the protocol index file.
 - d. Another file will pop up: drag and drop that created shortcut onto the desktop.
 - e. Close the open pages and you are now ready to use the Icon on the desktop
4. Remove the CD and store it in a safe place.

Running the Program

1. Open the software on your desktop screen, then minimize it to the Task Bar.
2. Open Clasp, Calibrate and Test Client.
3. Insert appropriate Homeopathics into the Homeopathic Superimposition Program under Timed Therapies/Superlearning and/or Disease Dictionary.
4. Choose the first therapy and access the Bourne Protocol again (maximize it from the bottom toolbar)
5. Go to the index
 - a. Locate the condition
 - b. Click on it to open it
 - c. Highlight the appropriate codes, copy them (Ctrl-C) and then minimize again.

Note: copy only the codes: not the descriptor words like “detox with” and “Treat with”. Clasp looks for the same descriptor in the database to add the pattern.

6. Open Spinal and Timed Therapies and select the organ you are going to treat.
 - a. Paste the codes you have copied into the Isode panel. (Ctrl-V). Be sure to click on the appropriate organ button in the upper panel.
 - b. Leave time on one minute: click **Start**.
 - c. In most cases, you will get a 100 to 102 rectification in only one minute.

- d. There is need to need to understand or know what the codes are .It would be too complicated to explain just paste and copy them and you wont go wrong.

Do not type them into panels because if you get the spaces wrong or caps wrong they will not work, the only way to use them is paste and copy

Proceed to treat each organ as outlined in the protocol.

Finishing the Session

When you have reached the end of the session, go to:

1. Test > Information>Add Acu Five Systems. This will add the values to the info grid.
2. Look at the values in the Info Grid (turquoise box)
3. Look for the “odd number out”: the one that seems higher or lower than the rest, representing the most imbalanced meridian.

e.g.

98 Kidney-Bladder Meridians
 106 Liver-Gall Bladder Meridian
 91 Spleen-Pancreas-Stomach Meridian
 99 Lung-Large Intestine Meridian
 97 Heart-Small Intestine Meridian

In this case it is 106, Liver and Gall Bladder.

4. Copy (Ctrl-C) the codes
5. Go to ***Spinal/Sarcodes***
6. Paste (Ctrl-V) into the Isode bar and treat the Liver-Gall Bladder for one minute. (Treat the organ corresponding to the meridian in the sarcodes list with the treatment/points added into the piggy backs)

Note: there are 2 points for each meridian:

*One point will sedate and is used for inflammatory conditions: hyper reactive-high values
 One point will tonify and is used for deficient conditions: hypo-reactive, low values
 If there is only a small imbalance then paste the treatment code into the isode line.*

Meridian (Sarcode)	Treatment	Tonify Point	Sedate Point	Element
Kidney-Bladder	E-4	75	770	water
Liver-Gall Bladder	E-5	765	780	wood
Spleen-Pancreas-Stomach	E-2	745	740	earth
Lung-Large Intestine	E-3	765	760	Metal
Heart-Small Intestine	E-1	755	750	Fire

7. Test Page/Information: Load “Nelson Report”. Check “Immediate Healing Goal”. If there is something that needs to be done, go and do it now.
8. Check “Current Rectifications” in Main Page (one before Test Page). Rectify all

remaining issues.

9. Check Varhope changes

Therapeutic tip

After running the test energize a glass of water from the QXCI in the treatments drop down panel. Click on “Energize water from QXCI device point probe”. Use a coil to do this if you have one. Have the patient drink this and the efficacy of your treatment will be enhanced. The patient will already be detoxed by the water, energized and the biological age will be reduced.

Notes

1. The listed *homeopathics* (many of them are in the matrix) are there for you to consider and test.
2. If the *colors* are not in the colors box then just run color therapy if you are going to do colors.
3. If you have bought an *ADK3000* then you can do more precise color work and at the same time localized QXCI therapy over the areas of the body that require therapy.
4. The *Acu points* are there to use. You can paste and copy them to the acupuncture point’s panel in the Acupuncture pages or in the Disease Dictionary. If you have Scio you can drop them into the Misc panel in homeopathic extras and run the acupuncture scan. When there is more than one formula, use a different formula at each sessions.
5. The *herbs* are there to consider if you can acquire them or if you are a herbalist. The nutritional section, exercise section, and affirmations are there for you to print out and hand to your patient.
6. Detox codes do not always need to be used. Dr Bourne uses them only in the first treatment and then when appropriate as per client presentation of toxicity etc. If the first treatment is a detox (rather than detox piggy backs) the detox codes are not used as piggy backs in further treatment (since the full detox has been done)

Sample Protocol-

This is just an illustration of the style and type of contents. It will help you to understand the process and scope. Trial protocols are not available.

Copyright 2004, Dr. A. C. Laubach-Bourne

These protocols are offered as an adjunct to normal QX/SCIO therapies and are not to be considered as a replacement. The codes that are suggested speed up the session and go very quickly as they usually only need 1 minute to run and rectification is always excellent.

Programs>Spinal>Timed Therapies

1. Treat the **Lymphatics**: Detox with N.10 A-7 A-14

Program/Therapy/Dna

Run the DNA program in case this is a genetic problem.

Flower Essences: Mimulus; Crab Apple; Hornbean; Garlic

Exercise: Gentle aerobics.

Colors: Lemon; Indigo

Homeopathics: Tuberculinum and Sulphur: main remedies for milk, milk products, eggs, sardines, cooked animal food, hair dyes, use 200C. If no change with 2 doses in one week, try sulph 200C every week. If necessary, increase potency and give every

2 weeks. Psorinum; Apium graveolens; Argentum nitricum; Ferrum metallicum; Fragaria vesca; Lycopodium; Natrum muriaticum; Pulsatilla; Saccharum officinale; Sulphur; Thuja occidentalis; Urtica urens.

Therapeutic Note: Food sensitivities may be a part of a general pattern of glandular/lymphatic exhaustion that is often rooted in, or at least exacerbated by, a chronic, often sub clinical, infection in the sinuses and irritation in the oropharyngeal mucous membranes. This area is a common site of primary focal infection from which secondary infections derive. Palpation at reflex sites in proximity of Tw16 and Li10 to .5 and above and below the eyes will confirm this hypothesis. If tender and/or painful points are found, consider treating L7 and the reactive points of Li10 to .5 , St2.5 Tw16 St43. Sinus irrigation with saline solution is usually also helpful. See patient handout sinus wash.

1. Hot (110 degrees F) saline solution sniffed up into nose or applied via syringe or dental water pik.
2. The nostrils being injected should be sealed off around the syringe.
3. Allow the saline to drain into the sink from the other nostril.
4. For mouth, with head tilted to side over sink or basin, spray hot saline into mouth and allow fluid to run into sink. Use 1 liter of fluid.

Acu Points: Irradiate the reflex areas of the ears with pulsed red light: spleen, lung, liver, St2 St5 Li10 Li9 Li8 Li5 L7.

Herbs: Berberis aquifolium; Capsicum frutescens; Gentiana lutea; Hydrastis canadensis; Linum usitatissimum (flax seed); Urtica dioica; Berberis aquifolium.

Complementary Herbs And Formulas:

Try Swedish Bitters. If due to bowel dysfunction, Officianlis + Geranium maculatum + Echinacea angustifolia (root) + Hydrastis canadensis + Hibiscus esculentus + Ulmus fulva + Phytolacca Americana (toxic). Dosage: 1/4 to 1/2 tsp every 2 hours for acute. If due to hypochondria: Gentiana lutea + Artemisia absinthium, equal parts. Dosage: 1/4 tsp in warm water half hour before meals.

Nutrition: short alkaline fast followed by an elimination diet and rotation diet. Increase fiber to decrease bowel transit time.

Therapeutic Foods: Increase omega-3 and omega-6 fatty acids. Vegetable, nut, seed, oils, salmon, herring, mackerel, sardines, walnuts, flaxseed oil, evening primrose oil, black currant oil (if these are tolerated well).

Avoid: Common allergens such as wheat, eggs, soy, chocolate, dairy, corn, citrus, shellfish. Use an elimination diet, then introduce each of these 5 days apart to see reaction. Rancid oils, fried foods, coffee, soft drinks, chocolate, alcohol, sugar and sweet products, processed foods, MSG, saccharin, high levels of salt, spicy foods, stimulating foods, caffeine.

Supplements: Bioflavonoid, quercetin, hesperidin, catechin, Vitamin C, Vitamin E, Vitamin B5, Vitamin B5, Selenium, essential fatty acids, cysteine, Methionine.

This release prepared by Dr John Kelsey on behalf of Alistair Bourne, 24th May 2008.
