

QQS Training Programme

QQS Training Programme

The 4 Elements

Option: Quantum Education Course

Locations

Training is based on our 4 years of involvement in training both new and experienced users. We have reviewed the scheme in October 2004 and devised the following, to incorporate better and more training for users as well as flexibility.

8 days of training sessions are included in the package. This consists of:

1. Programme installation, start-up and navigational familiarisation.
2. Level 1 training: 2 days of structured training with working forms. Following this you will be able to confidently undertake clinical use.
3. Level 2: 1 day modality focused training to clarify, deepen assessment techniques and refine therapy options.
4. 4 small group specialist training seminars.

The 4 Elements

	<i>Description</i>
Element 1	Start up
Element 2	Level 1: 2 days small group
Element 3	Level 2: 1 day small group
Element 4	4 Specialist days OR Quantum Education Course subsidy

Element 1: this relates to program loading and activation. Either your networker or QQS will facilitate this.

Element 2: this is the foundation training component, which is essential for Level 1 certification required for insurance. It comprises:

- Navigational skills
- Core understanding of the program
- Core testing and therapy programmes
- Practice start up formats for allergy, nutrition, wellness screening.
- Live session.

Recording formats for sessions are provided and used throughout. A Basic Competence and safe use questionnaire (multiple choice) and a number of submitted client recorded sessions are required prior to the issue of Level 1 Certification.

Element 3: consists of choices to support both your individual/specific needs and further training process.

- Purchasers have this included in their purchase package and can select the different options.
- All offers are valid for 12 months following purchase and are subject to change only prior to purchase.

It is also possible to trade allowances against 1:1 training, which is charged at £300 per day exclusive of travel expenses.

QQS recognises that different users have different starting points, computer skills, will use the system in different ways, have different time constraints and availabilities as well as individual learning processes. The above training framework has been developed for several years and works very well. However, we are always open to discussing individual requirements.

Option: Quantum Education Course

For those wishing to deepen their understanding of the QXCI-SCIO Azizah Clayton offers a highly successful 10 module practitioner training over a 10 month period. This is available as a trade-off against training above, agreed on an individual basis. This course incorporates holistic healing, including natural nutrition. There is an optional anatomy and physiology module with this course.

Locations

- Level 1 and 2 are normally held in Birmingham on Friday and Saturday.
- Other locations are considered based on user locations.
- Specialist days are normally held in London although northern locations are also considered.
- There is a 2-4 week gap between Level 1 and 2.
